BUY-BACK OF BARCODE EQUIPMENT

Disposal or resale.

This includes everything relating to barcode and WIFI equipment, such as Access Points or Switches. Do not throw away your redundant devices. ADE has been purchasing old or redundant devices for over 30 years. This includes everything relating to barcode and WIFI equipment such as Access Points or Switches. Give your old equipment a second life. ADE refurbishes these units or uses them as spare parts for maintenance and repairs.

ADE offers the following buyback options:

- Simple Purchase
- Consignment
- Disposal

REPAIR AND MAINTENANCE

Maintenance and repair of
your data capture devices.

Extend the life span of your terminals and their performance with regular maintenance by ADE. Are your PDT3100, MC9000, MC3000, WSS1040 terminals faulty or at the end of their warranty period? Is your maintenance contract with the manufacturer coming to an end? We carry out all technical repair work and maintenance in our in-house repair center.

**With more than 2000 spare parts, our repair
center is able to repair your defective units as
quickly as possible.**

RENTALS

Rent your barcode scanner
incl. accessories.

ADE Vertriebs GmbH offers you pre-configured devices for e. g. your inventory takes. We have over 20 different data capture solutions for your stocktaking needs, available upon request. The application software is created in house and can be adapted to your merchandise management system.

In order to ensure the smooth execution of your stocktaking, our technical support is available daily (12/7) for the entire rental period.

You can rent any desired number of devices. Would you like to purchase the devices after the rental period? No problem, contact us now. With our rental offers you remain flexible. Do you require devices on different locations? We are happy to take care of the logistics.

SALES

Are you looking for
used or refurbished data
capture devices?

ADE offers thousands of different models by all manufacturers. Buy smart. ADE helps you to optimize your equipment at low cost.

- We can help you to meet your requirements for no longer manufactured, or discontinued models and their accessories (batteries, charging stations, access points, etc.).
- Reduce your investment costs by smart purchasing. Whether used, fully refurbished or new. We align our solutions with your requirements.
- Optimize your existing barcode equipment inventory. In order to reduce your investment costs through smart purchases, we offer equipment in different levels of conditions. Whether used, fully refurbished, or new. We supply equipment to meet your needs.

**Produkt LifeCycle
Management is
our strength.**
